No setup fee, no cancellation fee

Take advantage of workstation packages, with optional iPad and scanner.

The time is now
Government subsidies and newly enacted regulations with substantial fines, penalties make this the best time to invest in technology.

The solution is simple
Web based solutions eliminate expensive servers, IT staff, maintenance and upgrade costs. State of the art ease of use and simplicity reduce installation and training costs and improves staff efficiency. You accomplish more in less time and improve the bottom line.

The price is right
Subscription based pricing gives you the best of both worlds, reduced cost and instant scalability so you can grow and change without reinvesting.

You need a good technology partner
Choosing a system is only the beginning. As you grow and your needs change, you need a knowledgeable partner to recommend, build and deliver enhancements and special features to make your life easier and save you time and money.
klipMedical has one of the industries lowest customization cost so we can easily adapts to your needs.

Choose from our expanding catalog of specialty cards & forms.

klipMedical Workstation

The instant, full service (Medical Record) workstation

Powerful complete setup, tested and configured for Front Office and Exam Room

We have taken the pain out of equipment selection and where to buy.

Your experience with an EMR application includes the hardware and components you use every day.

The price of equipment is dropping and to remain competitive, many companies have introduced budget system at the cost of quality and speed.

We have tested and worked with many systems in our labs, and have identified the most well equipped and best priced components and created a medical office dream system. *These meet and exceed your needs at a remarkable price point, which will serve your office regardless of your EMR application selection.*

Other factors such as your internet speed and wireless configuration can play a role in your systems usability and effectiveness, we got you covered there too, *we'll report on the performance of your network and connectivity options available in your area.*

Equipment List

- Touch Screen workstation
- Scanner - Duplex, Card and full pages
